

Maxime de la Rocheterie

Full-Stack developer - based in Lyon, France

A **dynamic Full-Stack Developer** with **2+ years** of **continuous experience** in modern web technologies and software architecture. Highly proficient in **Java (Spring Boot)**, **TypeScript (Angular, Vue.js)**, and **PHP (Symfony)**, applying **DDD, CQRS**, and **TDD** principles to deliver robust **APIs** and intuitive user interfaces. Committed to best practices and continuous learning, as demonstrated by self-taught **DevOps** and independent project deployment.

Skills

Core

- **Languages:** Java, TypeScript, PHP, JavaScript, HTML, CSS
- **Frameworks & Libraries:** Spring Boot, Angular, Vue.js, Symfony, Node.js, AngularJS
- **Architectures & Design Patterns:** DDD, CQRS, MVC, OOP, TDD, MVVM, RESTful APIs, GraphQL, WebSockets
- **Databases:** MySQL, PostgreSQL, Mariadb
- **DevOps & Tools:** Docker, Git (GitHub), Jira, Confluence, CI/CD, Agile (Sprints)
- **Creative Tools & Concepts:** Adobe After Effects, Blender, 2D/3D Animation, VFX, Generative Design, Interactive Experiences

Software Development & Architecture

- **RESTful APIs** and **services** in using **Java/Spring Boot** and **PHP/Symfony**.
- Applied **Domain-Driven Design (DDD)** and **Command Query Responsibility Segregation (CQRS)** principles.
- Contributed to **system architecture** and database design (MySQL) for core business applications.
- **Developed** and **maintained** custom APIs, integrating various services and data sources.

Front-End Development & UI/UX

- Dynamic user interfaces and single-page applications with **Angular** and **Vue.js**.
- Custom component library to streamline UI development and ensure consistency.
- Refactoring of an **Enterprise Resource Planning (ERP)** system front-end, improving performance and user experience.
- **Front-end features** seamlessly with complex back-end APIs.

DevOps, Deployment & Infrastructure

- Independently **deployed open-source applications** online (e.g., [food.maxdlr.com](#), [books.maxdlr.com](#), [docs.maxdlr.com](#)).
- Gained hands-on expertise in **Docker**, **server administration** (OVH) through practical application in deploying live services.
- Contributed to continuous integration/continuous deployment (CI/CD) practices.

Professional Acumen & Soft Skills

Problem-Solving

Addressed complex technical and creative challenges with **adaptable** and **resourceful** solutions, **optimizing** application **performance** and resolving intricate system issues.

Autonomy & Initiative

Proactively managed development tasks and projects from **conception to deployment**, consistently taking ownership and independently acquiring new skills to meet project demands.

Team Collaboration

Operated effectively within **Agile** environments, contributing to **planning**, **reviews**, and adapting to evolving project requirements across **multiple teams**.

Organization & Planning

Managed multiple projects simultaneously, prioritizing tasks and adhering to deadlines in both development and freelance motion design roles. Applied structured approaches to project execution.

Professional & Academic Context

- **Full-Stack Developer | Decq**
September 2023 – Present
- **Vue.js/JavaScript Instructor | EPSI**
December 2024 – Present
- **Master's Degree**
Computer Software Engineering
OpenClassrooms
September 2024 – June 2025
- **Bachelor's Degree**
Web Engineering
ESGI & Wild Code School
February 2022 – September 2024
- **Motion Designer | Freelance**
January 2014 – February 2023
- **Bachelor's Degree**
3D / VFX Design
Aries
September 2010 – June 2014

Languages

- **French | Mothertongue**
- **English | Fluent**
